5. NEW BUSINESS/DISCUSSION ITEM

a. Presentation of Road and Street Safety for Non-Engineers

Major points were as follows:

- Amanda Deering the Transportation Engineering Assistant at DKS Associates, presented "Transportation Modeling 101" which is intended to model travel patterns in our region at a high level. The model takes in information such as land use, where jobs and households are located and then builds a computer model to estimate existing and future travel patterns, traffic volumes and uses information to influence our

transportation plans. This is a link to this presentation:
