How long have you lived in Oregon City?

11 years

Describe relevant work experience that may relate to the board or committee you are applying for.

Experience in education and journalism in Clackamas County has blessed me with a breadth of knowledge about many different subjects citywide and put me in contact with a diversity of people all around the city.

Please list out any High School, Secondary Education, Trainings, and Colleges, along with years completed. Also list degrees and certifications.

Lincoln High School, diploma, 2002 Reed College, bachelor's degree, 2006

Describe volunteer activity within this or other communities

Currently a regular volunteer with Rotary, TAC and MNA

Do you presently serve on a City board or committee?

If yes, which boards:, TAC

Explain your interest in this board/committee and why you think its issues are important

I saw that there was a vacancy on the PRAC, and if they're interested in interviewing me for filling that vacancy, I'll research the issues they're working on. As for TAC, our transportation department is on the precipice of a funding crisis. Our voices on TAC will be important in guiding the commissioners on where to cut services or find new sources of transportation revenue. There's a lot of appetite around the city for more sidewalks, bulb-outs and anything else that calms traffic and makes our streets safer for all users. As TAC members, it's our duty to help commissioners see the value in these street improvements and identify priority areas for investment.

List any relevant experiences, skills, or interests that have helped to prepare you for a position on this board or committee

I am a regular user of parks all around the city and a variety of transportation methods (car/bus/bike/walking).

In which neighborhood of Oregon City do you live?

McLoughlin

I certify that the information I am submitting is true. If residency is a requirement of holding this position, I certify that I am an Oregon City resident and will comply with requests for additional proof of residency if requested. I consent to allow the information contained in this application to be released to the general public upon request, including my email address and phone number.

Kittelson & Associates
Job Title
Principal Engineer

How long have you lived in Oregon City?

Since 1998

Describe relevant work experience that may relate to the board or committee you are applying for.

I am a professional civil engineer with over 25 years of experience in the planning, design, and delivery of transportation and stormwater infrastructure projects throughout Oregon. As a Principal Engineer at Kittelson & Associates, I lead multidisciplinary teams on projects involving roadway design, traffic safety improvements, multimodal corridors, and complete street upgrades. My work frequently includes pedestrian and bicycle facility design, ADA compliance, intersection and corridor safety evaluations, and integration of green stormwater infrastructure to support sustainability and Vision Zero goals. In addition to my design experience, I have extensive technical expertise in hydrology and hydraulics, stormwater management, and floodplain analysis areas that directly support the committee's mission of enhancing safe and efficient transportation systems. I have a proven record of delivering projects that balance engineering feasibility with community needs, and I am committed to applying my professional experience to help advance the community's transportation safety and accessibility priorities.

Please list out any High School, Secondary Education, Trainings, and Colleges, along with years completed. Also list degrees and certifications.

I have BS and MS in Civil Engineering. I am also professional engineer in Oregon and Washington

Describe volunteer activity within this or other communities

I have been on Oregon City TAC since 2013. I am also member of Clackamas County Design Review Board, Chair of Greater Oregon City Watershed Council, and member of Clackamas County Community Road Fund Committee

Do you presently serve on a City board or committee?

If yes, which boards:, Transportation Advisory Committee

Explain your interest in this board/committee and why you think its issues are important

I have had the privilege of serving on the Traffic Advisory Committee since 2013, and I am interested in continuing because I care deeply about advancing transportation safety, accessibility, and sustainability in our community. Over the past decade, I have seen how thoughtful planning, public input, and collaboration between staff and residents can lead to meaningful improvements that make our streets safer and more efficient for everyone. As a professional civil engineer with over 25 years of experience in transportation and stormwater infrastructure design, I bring a technical perspective that complements the community's vision. I have worked on numerous projects focused on multimodal safety, traffic operations, and green infrastructure, and I believe this experience helps me contribute informed, balanced recommendations on the committee. The issues addressed by the TAC are important because they directly affect people's daily quality of life how safely they move through neighborhoods, access transit, and connect to key destinations. I am passionate about continuing to serve and using my expertise to support data-driven, equitable, and forward-looking transportation decisions that benefit the entire community.

List any relevant experiences, skills, or interests that have helped to prepare you for a position on this board or committee

I bring more than 25 years of experience in civil and transportation engineering, specializing in roadway design, traffic safety, and stormwater management. My professional background includes leading multidisciplinary teams on projects that improve pedestrian and bicycle safety, enhance traffic operations, and integrate green infrastructure into transportation corridors. Since 2013, I have served on the Traffic Advisory Committee, where I've gained valuable insight into community priorities, public engagement, and the local decision-making process. This experience has strengthened my ability to evaluate projects not only from an engineering perspective but also through the lens of neighborhood safety, livability, and equity. Key skills that I offer include: Expertise in multimodal design, and safety analysis Collaborative communication and public engagement experience Commitment to Vision Zero

and Complete Streets principles Technical proficiency in hydrology, drainage, and sustainable infrastructure design I am passionate about applying these skills to support informed, balanced, and community- centered transportation solutions that make our streets safer and more connected.

In which neighborhood of Oregon City do you live?

I live near Park Place
